

# Maths at Spring Hill

## Milestone 1

### Key Learning EYFS

#### Number/ Place Value:

- Have a deep understanding of number to 10, including the composition of each number;
- Subitise (recognise quantities without counting) up to 5;
- Automatically recall (without reference to rhymes, counting or other aids) number bonds up to 5 (including subtraction facts) and some number bonds to 10, including double facts.
- Count objects actions and sounds
- Link the number symbol (numeral) with its cardinal number value.
- Rote count from 1.
- Rote count on from a given number between 1 and 10.
- Rote count back from 5 to 1 then from 10 to 1.
- Rote count back from a given number between 10 and 1.
- Know what number comes before, or after a given number.
- Say a number between two given numbers.
- Have a deep understanding of number to 10, including the composition of each number;
- Subitise (recognise quantities without counting) up to 5
- Explore and represent patterns within numbers up to 10, including odds and evens.
- Compare quantities up to 10 in different contexts, recognising when one quantity is greater than, less than or the same as the other quantity

#### Counting beyond 10

- *Rote count from 1.*
- *Rote count on from a given number between 1 and 20.*
- *Rote count back from 5 to 1 then from 10 to 1.*
- *Rote count back from a given number between 1 and 20.*
- *Know what number comes before, or after a given number.*
- *Say a number between two given numbers.*
- Verbally count beyond 20, recognising the pattern of the counting system

#### Addition and Subtraction

- *Understand the concept of addition by practically combining sets of objects to find how many and use the terminology part – part – whole.*
- *Understand the concept of subtraction by practically removing one amount from within another to find how many are left and use the terminology part – part – whole.*
- *Add two single-digit numbers totalling up to 10, using practical equipment.*

# Maths at Spring Hill

- Subtract a single-digit number from a number up to 10, using practical equipment.
- Subtract a single-digit number from a number greater than 10, using practical equipment.
- Automatically recall (without reference to rhymes, counting or other aides) number bonds up to 5 (including subtraction facts) and some number bonds to 10, including double facts.

## Multiplication/Division/Fractions

- Understand that sharing is splitting an amount into equal parts.\_
- Understand that halving is sharing into two equal parts.
- Understand that doubling is adding the same number to itself.
- Automatically recall double facts to 10.
- Explore and represent patterns within numbers up to 10, including double facts and how quantities can be distributed equally.

## Geometry

- Select rotate and manipulate shapes to develop spatial reasoning
- Compose and decompose shapes so that children recognise a shape can have other shapes within it, just as numbers can.
- Continue, copy and create repeating patterns.
- *To identify and name common 2d shapes (square, rectangle, circle, triangle)*

## Measurement

### Time

- Talk about significant times of the day, (e.g. home time, lunch time snack time, bed time, etc).
- Use the language of comparison when talking about time, (e.g. longer/shorter; faster/slower).
- Understand and use language (e.g. before, after, yesterday, today, tomorrow).
- Sequence two or three familiar events and describe the sequence.
- Know the names of the days of the week.
- Say names of days of the week in order.

### Length and Height

- Understand that measures of distance can have different names including length, width, height.\_
- Compare two objects of different length.\_
- Compare two objects of different width.\_
- Compare two objects of different height.\_
- Understand and use language of comparison, (e.g. wider/narrower; longer/shorter; taller/shorter).\_
- Order three objects of different length/width/ height.\_

# Maths at Spring Hill

- Understand and use language of comparison between three objects, (e.g. widest/narrowest; longest/shortest; tallest/shortest).
- Find an object of similar length, width, height. Understand the concept of the conservation of length, width, height.
- Use uniform non-standard units to measure length, width, height.

## Capacity

- Compare capacity
- Understand the measurement of volume/capacity (empty/nearly full).
- Compare two of the same container holding different amounts.
- Understand and use language of comparison, (e.g. empty/full, more/ less, most/least)
- Order three of the same container holding different amounts.
- Understand and use the language of comparison of three of the same container holding different amounts (e.g. most/least).
- Understand the concept of conservation of volume/capacity.
- Use uniform non-standard units to measure volume/capacity

Threshold concept		Milestone 2	Milestone 3	Milestone 4
Number –	Number and place value	<p><u>Year 1</u></p> <ul style="list-style-type: none"> <li>▪ count to and across 100, forwards and backwards, beginning with 0 or 1, or from any given number</li> <li>▪ count, read and write numbers to 100 in numerals</li> <li>▪ read and write numbers from 1 to 20 in numerals and words</li> <li>▪ count in multiples of twos, fives and tens</li> <li>▪ given a number, identify one more and one less</li> <li>▪ identify and represent numbers using objects and pictorial representations including the number line,</li> </ul>	<p><u>Year 3</u></p> <ul style="list-style-type: none"> <li>▪ count from 0 in multiples of 4, 8, 50 and 100;</li> <li>▪ find 10 or 100 more or less than a given number</li> <li>▪ recognise the place value of each digit in a three-digit number (hundreds, tens, ones)</li> <li>▪ compare and order numbers up to 1000</li> <li>▪ identify, represent and estimate numbers using different representations</li> <li>▪ read and write numbers up to 1000 in numerals and in words</li> <li>▪ solve number problems and practical problems involving these ideas</li> </ul>	<p><u>Year 5</u></p> <ul style="list-style-type: none"> <li>▪ read, write, order and compare numbers to at least 1 000 000 and determine the value of each digit</li> <li>▪ count forwards or backwards in steps of powers of 10 for any given number up to 1 000 000</li> <li>▪ interpret negative numbers in context, count forwards and backwards with positive and negative whole numbers, including through zero</li> <li>▪ round any number up to 1 000 000 to the nearest 10, 100, 1000, 10 000 and 100 000</li> <li>▪ solve number problems and practical problems that involve all of the above</li> </ul>

# Maths at Spring Hill

		<ul style="list-style-type: none"> <li>use the language of: equal to, more than, less than (fewer), most, least</li> <li><b>Count within 100, forwards and backwards, starting with any number</b></li> <li><b>Reason about the location of numbers to 20 within the linear number system, including comparing using &lt; &gt; and =</b></li> <li><b>Count forwards and backwards in multiples of 2, 5 and 10, up to 10 multiples, beginning with any multiple, and count forwards and backwards through the odd numbers</b></li> </ul> <p><u>Year 2</u></p> <ul style="list-style-type: none"> <li>Count in steps of 2, 3, and 5 from 0, and in tens from any number, forward and backward.</li> <li>Read and write numbers to at least 100 in numerals and in words.</li> <li>Recognise the place value of each digit in a two-digit number (tens, ones).</li> <li>Identify, represent and estimate numbers using different representations, including the number line.</li> </ul>	<ul style="list-style-type: none"> <li>read Roman numerals from I to XII</li> </ul> <p><u>Year 4</u></p> <ul style="list-style-type: none"> <li>count in multiples of 6, 7, 9, 25 and 1000</li> <li>find 1000 more or less than a given number</li> <li>count backwards through zero to include negative numbers</li> <li>recognise the place value of each digit in a four-digit number (thousands, hundreds, tens, and ones)</li> <li>order and compare numbers beyond 1000</li> <li>identify, represent and estimate numbers using different representations</li> <li>round any number to the nearest 10, 100 or 1000</li> <li>solve number and practical problems that involve all of the above and with increasingly large positive numbers</li> <li>read Roman numerals to 100 (I to C) and know that over time, the numeral system changed to include the concept of zero and place value.</li> <li><b>Know that 10 hundreds are equivalent to 1 thousand, and that 1,000 is 10 times the size of 100; apply this to identify and</b></li> </ul>	<ul style="list-style-type: none"> <li>read Roman numerals to 1000 (M) and recognise years written in Roman numerals.</li> </ul> <p><u>Year 6</u></p> <ul style="list-style-type: none"> <li>read, write, order and compare numbers up to 10 000 000 and determine the value of each digit</li> <li>round any whole number to a required degree of accuracy</li> <li>use negative numbers in context, and calculate intervals across zero</li> <li>solve number and practical problems that involve all of the above</li> <li><b>Recognise the place value of each digit in numbers up to 10 million, including decimal fractions, and compose and decompose numbers up to 10 million using standard and nonstandard partitioning</b></li> <li><b>Understand the relationship between powers of 10 from 1 hundredth to 10 million, and use this to make a given number 10, 100, 1,000, 1 tenth, 1 hundredth or 1 thousandth times the size (multiply and divide by 10, 100 and 1,000).</b></li> <li><b>Reason about the location of any number up to 10 million, including decimal fractions, in the linear number system, and round numbers, as appropriate, including in contexts</b></li> </ul>
